Hubert Alacoque
Principal Consultant
Innovative Development & Design Engineers Ltd (Iddel)

Hubert Alacoque, principal consultant, brings 30 years of broad engineering and business management experience in the dominant sectors of economic activity of Atlantic Canada - mining, offshore oil & gas, fishery, construction, R & D, aerospace and transportation. Hubert has significant experience in engineering, operations management, business development, R&D financing, project management and consulting. He has had many senior roles and responsibilities in strategic and business planning projects, industrial operations management, business development and consulting.

He is a member of ASHRAE and PEGNL. Hubert has a Master in Business Administration (1998) from Memorial University of Newfoundland, a Bachelor of Science - Mechanical Engineering (1981) from École Polytechnique in Montreal, Quebec, and Automotive Technology Certificate (1974) from Galt Trade School in Sherbrooke, Quebec.

Hubert enjoys sailing in Conception Bay and around Newfoundland, travelling and jogging.
